	CONTEX.

Nexxu was established when we noticed a gap in combining strategy with marketing B technology. The global industry is fast-moving and filled with big players that set the towering standards. We believe the small companies of today will be the big companies of tomorrow. We are reinventing traditional marketing, bringing together unrivalled talent, resources and skills to provide disruptive innovation. Nexxu combines innovation, technology and strategy to deliver the best results for our clients.

2

We partner with our clients to transform their organisations in the ways that matter most to them. This requires embedding strategies and tactics in conventional and non-conventional ways, marketing, publicity, digital marketing, branding and design into core processes that build capabilities that support organisations and people to thrive in an ever-changing context.

With exceptional people from all around the globe, we combine international expertise and local insight to help you turn your ambitious goals into reality.

Our work is founded on a rigorous understanding of every client's context, industry dynamics, and macro-economic environment. We are always at the front wave of change as we deeply study markets, trends, and emerging best practices, in every industry and region, locally and globally. Our approach to knowledge also helps advance the practice of management.

We drive transformation and build businesses by bringing together the capabilities needed to support organisations grow and thrive in their respective industries locally, regionally, or even globally.

N NEXXU GROUP

GROWING COMPANIES

RECOG NITION

We entered 2 of our projects into the 2020 and 2021 Cannes Lions: The International Festival of Creativity. Every year, we will select our best work to be entered into the annual festival also known as "The Oscars" of the marketing world. The festival has been championing creative excellence since 1954 with the goal of providing a global destination and the definitive benchmark for creativity that drives progress. By doing this we wanted to challenge the work that we have created on a competitive level against some of the biggest marketing agencies and creators in the world. Work that we have created on a competitive level against some of the biggest marketing agencies and creators in the world.

The Cannes Lions award is a globally recognised award and winning a Lion is a career milestone, future proofs your business's growth and gives you worldwide exposure. We hope that through our work, we are able to inspire others through creative, innovative ways of marketing and that, with hard work and dedication, we will win an award within the near future.

SUSTAINABILITY

Nexxu aims to make a positive impact on society and the environment. We advise our clients on making ethical and sustainable choices to create brands with a purpose and to embed sustainability into our products and services. We create transformation and give back to the community with our pro bono campaigns. These campaigns help to start conversations and bring out positive change on social and environmental issues for the government, NGOs and social enterprises in the world that need our services to take their noble cam- paigns to the next level. All of our pro bono campaigns are aligned with the UN Global Compact. We follow the ten principles of the United Nations Global Compact as an approach to running our company. By adopting these principles, we can assure that we are operating in ways that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption. Looking into the future, our goal for Nexxu Group is to become a key player in leading sustainable development and change within

HUMAN RIGHTS

Principle 1 : Businesses should support and respect the protection of internationally proclaimed human rights; and

Principle 2 : make sure that they are not complicit in human rights abuses.

LABOUR

Principle 3 : Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining;

Principle 4 : the elimination of all forms of forced and compulsory labour;

Principle 5 : the effective abolition of child labour; and

Principle 6 : the elimination of discrimination in respect of employment and occupation.

ENVIRONMENT

Principle 7 : Businesses should support a precautionary approach to environmental challenges;

Principle 8 : undertake initiatives to promote greater environmental responsibility; and

Principle 9 : encourage the development and diffusion of environmentally friendly technologies

ANTI-CORRUPTION

Principle 10 : Businesses should work against corruption in all its forms, including extortion and bribery.

STRATEGY & | TACTICS

NEXXU'S STRATEGY

OMNI-CHANNEL MARKETING TACTICS

Using our Global Marketing Omni Channel approach, we are able to determine some of the key aspects within the global sales and marketing platforms. There are so many different moving parts to a sales strategy. Depending on where you are, what you take as the norm might not be the same for you on the other side of the country — imagine on the other side of the world. Different platforms, terminology, cultural differences, that are completely unknown to you, your products and/or services. Legislation, distribution channels, social media platforms, search engines, what is acceptable for your target market? Using this approach we tailor made the best route for your needs in order for your business to flourish and succeed.

STRATEGY

Growth

Tactics

Internationalisation

Black swan approach

enviros

CLIENT: Enviros Survey and Consultancy Ltd

Enviros Survey and Consultancy focuses on providing innovative and integrated enviromental, geosciences, asset integrity, and decommissioning solutions to Oil & Gas and Renewable Companies globally. Being an International player it is always seeking opportunities in different places and as a consequence it finds itself limited by market knowledge. Where to go next? How to get there? Depending on the client and region targeted the game plan might be completely different. Enviros decided to target the Caribbean as a region to position themselves. Market research intelligence, who is in there, clients, competitors, suppliers were some of the areas worked by Nexxu Group and Enviros. The countries of Trinidad and Tobago and Suriname were chosen as of high importance to them and a bespoken strategy was created. Just a few months after its implementation, Enviros was awarded a multi-million dollar contract in Suriname.

ADVISORY

Solar Tenaga

CLIENT : Solar Tenaga Sdn Bhd

Nexxu Group has been requested to identify and test the geographical differences in prices of solar PV assets across different parts of South East Asia. We concluded that installed capacity in Malaysia, Indonesia and Thailand trades at a lower price than the global multiple, while installed capacity in Singapore, Brunei and Vietnam trades at a premium. We also find that large variations exist among the SEA countries analysed. We find that installed capacity in Malaysia, Thailand, Indonesia and Vietnam trades at a discount while installed capacity in Singapore and Brunei trades at a premium compared to the global estimate. Working together with Solar Tenaga we were able to provide them strategic advisory combined with market intelligence that was then used to help our client positioning in the region.

MARKETING

CLIENT : CO2 Securities Limited

Co2 Securities is the leading global climate mitigation specialist company dedicated to developing sustainable, large-scale investments and activities in the environmental market as well as committing to carbon-cutting actions in our society. Nexxu Group was given the task of initiating their marketing strategy as well as managing all marketing campaigns and creating marketing content.

INTERNAT ONAL SATION

В BERЯY BLOSSOM

CLIENT BERRY BLOSSOM LONDON

Berry Blossom collaborated with Nexxu Group for strategic commerce, planning and execution. By using the omnichannel marketing strategy we were able to identify the key players in the beauty industry before developing a solid plan to cater to the com- munication and marketing needs of Berry Blossom.

The focal target for the brand is to market the products directly to the consumers, which is why building a strong e-commerce platform that is user-friendly is important. Social media is also a strong asset of Berry Blossom as it engages with the consumers on a personal level and directs them to the website. Being a global skincare brand that is operating in Europe, Americas & Asia Pacific, all of the technology that is curated caters to the local market of each region.

By applying the omni channel approach, we were able to determine the different marketplaces for each region (Shoppe & Lazada in South- east Asia, a physical store in the heart of London, and Lojas Americanas in Brazil).

WORKFORCE SOLUTIONS

SPECIALISED TALENT SOURCING SUPPORT

Working in a world where acquiring the right talent at the right time is a competitive advantage, Nexxu excels at connecting talent with organizations through an optimized, multi-channel approach that works better and faster. With years of experience working with international professionals, an unparalleled global reach and local expertise, we match companies with top talent with the most in-demand skills.

We help our clients develop and maintain the flexibility of their workforce, which enables them to respond to dynamic business needs and staffing requirements. With in-depth knowledge of the skills required in each industry, our consultants and staffing agents understand the business challenges of today and tomorrow.

RENEWABLE, SUSTAINABLE, RESOURCES

In the face of market volatility and a growing focus on long-term, sustainable supply, energy producers need top-quality commercial and technical teams to support the development of their asset infrastructure.

Focused on energy exploration, development and optimization, Nexxu can help companies maneuver through complex energy projects in remote locations – both onshore and offshore. Regardless of project type or phase, Nexxu offers a range of services to help companies achieve their goals and grow their business at every stage of the project lifecycle. Our integrated service offering means we can assist you with everything from scoping, planning, engineering and construction management, to delivery, operations and asset optimization.

ENERGY SECTORS

OIL & GAS

ENERGY

SUSTAINABLE ENERGY

POWER & GAS NETWORK 27

OIL AND GAS

The oil and gas industry is recovering globally, and producers are looking at new strategies to improve profits while addressing the technical difficulties associated with delivering resources to the market in an efficient and safe manner.

Our team has a solid track record of working on a variety of technically challenging oil and gas projects. We support informed investment, investigation, operation and decommissioning – whether onshore or offshore.

We assist clients in controlling environmental impacts, building smart infrastructure, maximising their return on investment, and bringing oil and gas to market efficiently, effectively and safely. We specialise in providing technical and consulting services for projects in remote, sensitive and operationally complex areas.

ENERGY STORAGE

Energy storage is becoming a critical element in several large scale wind, solar and distributed energy projects. As this technology becomes more important, Nexxu has developed the skills to provide technical and economic support for these investments at all stages of the project lifecycle.

With our strategic insight, proven leadership and in-depth technical expertise, we help clients to embrace, refine and commercialise energy storage technologies for utility-scale and distributed projects.

Our strength in industrial design gives us a unique insight into how companies can benefit from adopting this technology as an integral part of their renewable energy generation portfolio.

ENERGY SECTORS

POWER AND GAS NETWORK

We provide the support you need to deliver your network projects within the constraints of a highly regulated sector. We specialise in the strategic planning for energy distribution networks and a whole host of technical services to support their effective design and delivery.

Our expertise covers all phases of the project lifecycle, from initial feasibility studies through detailed design to implementation and operations. We can assist with engineering work such as environmental impact assessments, heritage surveys, surveying and spatial modelling, and planning law matters such as route selection and negotiation of grid connections.

As we believe in the importance of sustainable asset management, we pride ourselves on working with our clients to improve their assets, maximise operational efficiency and reduce costs.

SUSTAINABLE ENERGY

Nexxu's experts are providing assistance with the investment, innovation and commercialization of renewable energy as the industry evolves and producers look to take advantage of the possibilities of clean energy within regional markets.

We are focused on enhancing global energy security through cost-effective, sustainable infrastructure with high yield and low impact at scale. The technology expertise we have spans large-scale solar, wind, tidal and hydro power, as well as geothermal, carbon capture and storage solutions.

To support this expanding industry, we offer a variety of services such as site exploration, planning and permitting, environmental management, community engagement, oceanography, and engineering. WORKFORCE SOLUTIONS
